

Aïkiou

Pronounced
"IQ"

INTERACTIVE DOG BOWL

Enables the dog to fulfill its natural need to search for food by finding its meal in the various cavities while having fun!

It's smart to be
healthy!

Designed for all dog races, Aïkiou presents several unique benefits :

- provides increased stimulation of the senses of the animal
- significant slowdown of food consumption
- easy and convenient care and use (from freezer to dishwasher)
- can hold the whole meal (up to 3 1/2 cups) dry or wet

DIFFICULTY LEVEL
1

ADVANTAGES FOR A HEALTHY DOG

- Stimulates the intellect and entertains the animal during its meal**
- Since the problem solving is encouraged by a reward, the activity gets more motivating and stimulating for the dog. The intellectual activity occupies the dog while helping to prevent behavior problems linked to boredom.
- Helps reduce digestive problems**
- Because of its numerous cavities and the underlying active search for food, the animal eats slower, contributing to a better digestion.
- Helps prevent weight problems**
- Since the animal eats slower, it feels satiety, contributing to a reduction of the quantity of ingested food.
- Helps to develop intellectual capacities**
- Having a problem solving goal, the animal enjoys a positive and educative activity when the food bowl is used as an interactive game with its owner.
- Helps to stimulate the dogs with reduced motivity**
- Older or arthritis suffering dogs or dogs that underwent a recent surgery cannot spend their physical energy as normal. The Aikiou offers an activity to stimulate their intellect and to spend part of their excess energy.
- Helps to bring back interest for food**
- Motivates dogs that do not feed enough or have lost interest in food providing them with a new challenge of search and mental stimulation.

Product features

- Durable food grade plastic
- Individual packaging
- Anti-slip base
- Each master contains 6 individually packaged bowl
- Available in 2 colours
